## **New Clinical Guideline Available for Preventing Unintended Pregnancy in Adults**

A new clinical guideline for preventing unintended pregnancy in adults has been jointly developed and released by a statewide 40-member Provider Task Force as part of the Governor's Blueprint for Preventing Unintended Pregnancies, in collaboration with the Michigan Quality Improvement Consortium (MQIC).

*Prevention of Unintended Pregnancy in Adults 18 Years and Older* gives talking points for doctors and other providers when counseling patients on their plans to prevent unplanned or unwanted pregnancy. Patient and provider education materials also are included. The guideline was built from several evidence-based sources, including 2006 Centers for Disease Control and Prevention (CDC) recommendations. Developed in a public-private partnership, it may be the first such clinical guideline in the U.S.

Among other resources, the new clinical guideline helps to connect uninsured women up to 185% of the federal poverty level with family planning services through *Plan First!*, Michigan's Medicaid waiver program.

"In Michigan, about 4 in every 10 pregnancies are mistimed or unwanted at the time of conception," said Kimberlydawn Wisdom, MD, Michigan Surgeon General, Michigan Department of Community Health. "Every \$1 in family planning saves \$3 in medical costs," said Wisdom, who convened the Provider Task Force that drafted the guideline for MQIC's subsequent review and approval.

"Preventing unintended pregnancies will reduce infant mortality and abortion, as well as increase opportunities for a healthy pregnancy when the time is right," said Thomas Petroff, D.O., Provider Task Force chair and Chief Medical Officer of McLaren Health Plan/Health Advantage.

The new clinical guideline is available at [www.mqic.org](http://www.mqic.org). Patient and provider education tools are downloadable through an online link to Michigan Department of Community Health ([www.michigan.gov/mdch](http://www.michigan.gov/mdch)) and click on "Michigan's First Surgeon General"). For more information on *Plan First!* call 1-800-642-3195 or go to [www.michigan.gov/mdch](http://www.michigan.gov/mdch).
